EXPERIENCE

YELLOW PAGES
Burnaby, BC
Web Designer - Domain Name Specialist   June 2010 - June 2018

Award for Outstanding Contribution

Transitioning from the role of web designer using HTML, JavaScript and CSS; to Domain Name Specialist, I was responsible for a number of areas including:

- Training and supporting team members to provide technical assistance to customers.
- Resolving email and domain technical issues for hundreds of clients.
- Transferring customer domain names ensuring domains pointed to correct servers.
- Ensuring websites and emails remained live on the network.
- Assuring heightened customer service through enhanced service reliability and usability.
- Troubleshooting website management system and reported issues to the appropriate team, refining system functionality.

CONTRACT WEB DEVELOPER
Burnaby, BC
Web Developer   June 2009 - March 2010

Consulted, planned and delivered web presence solutions to small business sector clients:

- Designed and programmed websites and CMS using HTML, JavaScript, PHP and MySQL databases allowing for user management and maintenance.
- Educated and trained customers on how to enact technical and design changes.
- Developed client-side web-based marketing plans.
- Ensured deliverables were in line with client expectations and budgets.

CYBERMESH SYSTEMS
Burnaby, BC
Web Developer   June 2008 - March 2009

• Created a CMS to broadcast video content using PHP, XML, Action script and MySQL to facilitate adding further content to the platform.
• Created additional client revenue stream through development of a Flash Video Player to display site visitor geographically relevant ads.
• Collaborated with Sales function to determine client goals and expectations.
• Integrated new and emerging technologies to enhance company performance and meet needs.

INTERNET MEDIA CORPORATION
Vancouver, BC
Web Developer   January 2007 - June 2008

• Built, tested, debugged and maintained web applications with PHP and Flash using a LAMP stack server.
• Modified HTML and CSS elements to integrate a Flash player.
• Secured the members' area code to prevent intrusion.
• Collaborated with internal teams to ensure quality and usability of company websites.
